

Copper Basin Utility District ServLine Protection Programs

Residential Established April 1st, 2017
Commercial Established April 1st, 2018

LEAK PROTECTION PROGRAM

When it comes to leaks, we've got you covered. The Copper Basin Utility District has enhanced service to include a great program designed to protect your wallet.

In the event of a costly water bill caused by high-water usage from qualifying leaks or lines breakages, our ServLine Protection Program covers the coverage of your costly water utility bill once the active cause of the leak has been repaired. All eligible Copper Basin Utility District customers have been transitioned to this money-saving program, but if for some reason you'd like to remove your residence or business from the Leak Protection Program, please call today (423) 303-2665.

LINE PROTECTION PROGRAM

There are several reasons why your water line might break. Although materials have come a long way, nothing is ever break-proof.

Everything from erosion to soil acidity to tree roots or even the outdated practices for installing pipe can lead to issues far sooner than the expected. A house without water is hardly a home. So in the event of a water line crack or break and to get your personal infrastructure up and running again you must enroll. If you would like to expand your protection to include Line Repair and Replacement coverage call today (423) 303-2665.
